

2019-2020 Edgerton Elementary Drop Off and Dismissal Guidelines for Success

Thank you for your continued patience with our loop and parking at Edgerton School. We are trying to be as diligent as possible to keep our loops moving and to not have traffic back up. Please follow these guidelines we have them in place for the safety of your children! We have made a few adjustments to our pick up and drop off routines, please note the following and if you have suggestions, concerns, and ideas please make an appointment with Mrs. Stein at 751-4040.

All parent pick-ups and drop-offs will take place in the front of building for Kindergarten through 5th grade students. The loop at the back of the school will be used by busses only. Do not park along the street side behind Edgerton closest to school, this is for buses only. It blocks the buses if you are parked along this area and they can't pull in to load and unload students in a safe manner. All pick-ups and drop-offs will be at the front of the building in the color coded loops.

Drop Off & Dismissal

- The middle section is closed due to Construction
- The **Blue loop** will be pick-up and drop off for all students with the last name beginning with letters **A-L**. Kindergarten parents in classes **O'Connell and Baker/Larson** use this loop.
- The **White loop** will be pick-up and drop off for all students with the last name beginning with letters **M-Z**. Kindergarten parents from classes **Ryan** and **Mohler** use this loop.
- Students will be picked up/dropped off from the sidewalk only.
- Please pull all the way forward along sidewalk and leave a minimal gap between your car and the next so we can fit as many cars in pickup lane along sidewalk as possible.
- Keep loop moving when space opens up, always pull car forward and we will bring students to you.
- Do not drive around cars in waiting line to traffic lane to find open spot. This cuts others off and is a safety issue. Stay in line and wait to get to the sidewalk for pickup.
- Do not get out of your car to walk and get your child. The loops are only for loading and unloading at the sidewalk.
- Please be sure to have your child enter and exit your vehicle on the passenger side next to the sidewalk.
- Do not double- park in the vehicle loops-this practice places children in the flow of traffic.
- If you are wishing to park and come into the building please use the main staff parking lot at the front of school or in the neighborhood.
- Do not park and leave your car unattended in the pick-up loops at any time.
- Please do not park at the dance studio in front of Edgerton school. This is a private parking lot and they need their space for their business.
- The **back parking loop and sidewalk in front** (will be marked with cones) is a no parking zone. It is for buses only and for your child's safety we ask you park anywhere outside the loop and that sidewalk to go and get your child.

Please remember it takes a few weeks to get everyone going in the right direction. Please be patient and follow guidelines for your child's safety. We have these guidelines in place to keep our kids safe!

Respectfully, Mrs. Stein
