

Who: Kalispell Rotary Clubs (Daybreak and Noon) and LHC

What: DIG Rotary fundraising event hosted by LHC

Where: Kalispell North Town Center on Highway 93 and Rose Crossing

When: Saturday, June 8th from 10am-4pm

How: This is a family fun event for our community. The Kalispell Rotary clubs are coordinating with LHC and other partnering businesses to have heavy equipment for participants to experience up close and personal. There will be an opportunity to operate excavators, graders and bulldozers! The first 500 children will be able to construct their own tool box with the Home Depot team.

The cost is \$5 per person to enter the event or \$20 for a family of 5 or more! There will also be local food vendors on site so bring extra cash to fill your belly!

Why: All proceeds go toward the creation of a SPLASH PAD along the new Kalispell Trail that is being constructed downtown. The SPLASH PAD will be filled with sprayers, showers and water features on a non-slip surface that will provide the community with a fantastic play space to cool off on hot summer days!

DIG ROTARY DAY
